Project Experience

Museum Tour Map - github.com/jingyi/MuseumTourMap   *April 2017*

- Developed a full-page map that loads with 20 museums in San Francisco, CA.
- Users can view the unique information for each location and a direction guide for two of locations.

Feed Reader Testing - github.com/jingyi/FeedReaderTesting   *April 2017*
- Wrote comprehensive unit tests, using the Jasmine testing framework, for an RSS Feed Reader application that uses Google's RSS API.

Arcade Game Clone - github.com/jingyi/ArcadeGame   *March 2017*
- Developed a HTML5 Canvas powered video game using the best practices in Object Oriented JavaScript.
- Customized/added game assets and created different movement patterns.

Website Optimization - github.com/jingyi/WebOptim   *March 2017*
- Optimized an inefficient web application to ensure it runs at 60fps and achieves a PageSpeed score of over 95.

Work Experience

Satellite Station - **Project Manager**   *San Francisco, CA | 2012 - 2014*

- Managed Team (+5) and contractors/vendors (+100).
